BU Semi-Finished Products

KÖMASTEEL – THE IDEAL MATERIAL: VERSATILE AND VARIABLE!

KÖMASTEEL is an extremely bend resistant steel composite sheet consisting of steel cover sheets enamelled on both sides and an internal core of polyethylene.

Thanks to its ferromagnetic properties and the extremely hard and robust surface, KÖMASTEEL is ideal for many applications.

Both sides of the steel composite sheet are lined with a protective film.

Delivery programme

3050 x 1220 x 3 mm

Specifications

Cover sheet thickness: 0.3 mm

Colour: matt white / matt white

Weight; 7.1 kg/m²

Core: Polyethylene

Coating: modified polyester coating

Applied thickness: 20 µm (±2)

IMPORTANT

Protect cut edges from moisture!

APPLICATIONS

ADVERTISING SECTOR

KÖMASTEEL is the ideal advertising medium for **displays, labelling systems, and perimeter boards.**

BUILDING SECTOR

KÖMASTEEL is the construction medium for **machine cladding and balcony sheets.**

PROPERTIES

-  For internal and external applications
-  High bending strength
-  Hard and robust surface
-  Punchable
-  Ferromagnetic (for magnetic film)
-  Excellent digital printability
-  Reusable

Example : magnetic board

Example : machine cladding
