

REACH (1907/2006/EC) and RoHS (2011/65/EC) directives

We are informed about the subjects of the REACH directive 1907/2006/EC and will fulfil our legal obligations as manufacturer, importer or user of chemical substances with regard to the REACH definitions. KRD do not produce or apply chemicals in its products that are defined as liable to registration by KRD. With regard to the listed substances of very high concern (SVHC) under the REACH EU-directive we can confirm that we do not use any of the listed substances for the preparation of our KASI®-coating systems. For that reason we can confirm the compliance of the KASI®-coating systems with the above mentioned directive according to our actual level of knowledge. Any detection of technically caused impurities in trace analysis areas will not be performed.

With regard to EU directive 2002/95/EC, 2011/65/EC and 2015/863/EC (RoHS) we can confirm the following. We do not use any of the substances listed in the mentioned regulations for the preparation of our KASI®-coating systems. For that reason we can confirm the compliance of the KASI®-coating systems with the above mentioned directives according to our actual level of knowledge. Any detection of technically caused impurities in trace analysis areas will not be performed.
