

TUFFAK MIRRORED SHEETS... LEAVE A TRULY LASTING REFLECTION

Unlike traditional glass mirrors, TUFFAK Mirror is virtually unbreakable, improving safety by eliminating the potential for broken shards of glass. It is available as standard mirrorized polycarbonate sheet or in an abrasion-resistant coated option.

TUFFAK polycarbonate substrate provides an ideal optical quality substrate that also delivers outstanding strength and impact resistance.

- » Light weight - half the weight of mirrored glass
- » Easily fabricated on-site
- » Install using standard tools

With its high durability, safety and ease of fabrication, it is easy to see why TUFFAK Mirror outshines the competition.

Applications include:

- » POP displays
- » Toys
- » Casinos
- » Gyms
- » Hospitals
- » Amusement park rides
- » Jails/detention facilities
